Description

Description:

Introducing the Brand New 2026 Swift Voyager 594, a motorhome designed for family adventures and built with Ford’s renowned reliability. As a core part of the new Voyager Series, this model sets a new standard for on-the-road living, offering both space and peace of mind.

The Voyager 594 is powered by a robust Ford Euro 6D engine, offering a standard 130bhp with an option to upgrade to a more powerful 165bhp engine paired with an 8-speed full automatic transmission. A significant advantage is that this motorhome can be driven on a standard car driving license, making it accessible to more drivers. The cab features Ford’s cutting-edge Sync 4 system with a huge 12-inch touchscreen integrated into the dashboard, providing seamless access to DAB/FM RDS Radio, Apple CarPlay , Android Auto , and a reversing camera image. The cab is also equipped with steering wheel controls, cruise control, manual air-conditioning, driver and passenger
