Selling our campervan due to lack of use unfortunately.

It's a great van and never let us down on our many tours around Scotland and the rest of the U.K.

Like many, the conversion was a self build project for my wife and I during lockdown. Most of the base of the van was fitted professionally prior to our purchase (electrics, toilet, etc). We spent a lot of money and time making it look great and functional for long term trips.

It’s not perfect by any means inside or out, but it is clean and functional.

Good engine 2.2 diesel 99k miles - low mileage for the age

Manual gearbox
