Title: Racing Car Driving Experience

Description

Description:
Want to feel like Lewis Hamilton and experience real downforce? Now you can on the fastest race circuit in the UK.

You don't so much sit in a Formula Renault as get physically attached to the car. Tightly strapped into the cockpit, you become part of the car. Every bump, camber and vibration is transmitted through the driver, you know and feel exactly what is happening. Slick tyres and wings give razor-sharp responses. Try to relax behind the wheel, even the slightest driver input is a noticeable direction change.

Before the racing car, there's time to get to grips with the race circuit in the fantastic Alpine A110S. The mid-engine car is great fun and incredibly rewarding to drive, it gives great driver feedback, accurate and responsive steering and great handling balance.
